Apologies:

Members of the Public: 5

In Attendance: None

Public Participation:

There had been a problem reported recently when the defibrillator was need and the emergency services were unable to give out the access code, after investigation this was proved not to be the fault of the Parish Council as all its defibrillators were registered with the appropriate bodies.

However discussions had taken place to avoid any future difficulties over access and it was agreed the appropriate access no would be displayed with the defibrillator as a short term answer. In the longer term if was agreed to replace the security handles which the access code is needed for with a straight forward handle that would give immediate access.

Members of the public raised the matter of the application to upgrade a section of footpath F18 to Bridleway at Goadby Marwood SK 7732259, it was pointed out to the Council by a resident that this would cause difficulties for a local farmer. After discussion it was agreed to put this on next month' s Agenda which would give time for comments to be submitted before the close off date. In the meantime it was agreed Councillors would walk the footpath to familiarize themselves with what was involved.

It was agreed to get a quotes for the Cemetery path in Eaton as soon as possible and have the work carried out under the maintenance budget as this was a risk to the public over tripping.
